Children's Health Glossary

Do you have questions about your children's health? Almost every parent does. This glossary covers everything from headaches to chemical burns. This is one of the best places to have your question about your children's health answered.

As a parent it can be difficult to keep up with everything you need to know to protect your children's health. So use this glossary to find and explore new terms, problems you may have read about, or even things your doctor has mentioned. An informed parent is a super parent!
